Questions?

The new regulations for Sd33 - students transitioning to their catchment area, rather than feeder school. Students wanted a particular program (Ex. Hair dressing, equestrian) will be given the opportunity to come for that program, while attending their catchment school.

Bathrooms are monitor by a hall monitor and staff when they walk past. Please remind your students that a bathroom is not a hang out location. Hall passes are given to students; however, we have 80 classes running at one time.

The Football program has started with flag; there are currently 2 on the southside and 1 on our side. A strong group of parents involved with the giants and huskers.
