MESSAGE TO GRADS

The time has come at last. After 12 years of schooling, you are about to start your last year of high school. You have worked hard to get here, but the job is not done yet. This handbook is designed to make sure you have a successful year. It will explain everything connected to grad.

This will be a busy year for you with lots of opportunities to celebrate. However, you need to stay focused and make sure you meet all grad requirements. If you do not meet the graduation requirements then you will not be a graduate and will not be a part of the graduating class. Make sure you plan ahead and work hard to make this your best year.

Important note: We expect our graduates to be leaders in the school and to set good examples with the choices they make. Please refer to the school website to review the school code of conduct and expectations.

Grade 12 students who do not meet graduation requirements will **not** be on the commencement list in June and will be moved back to grade 11.

MESSAGE TO PARENTS/GUARDIANS

The year will be very busy and will go by very quickly! We anticipate that grads will be applying to post-secondary institutions, filling out scholarship applications, participating in Commencement and Awards Night and planning for the Prom. Of course, graduates will be doing homework, volunteering and maintaining part-time jobs.

There will be two Grad Parent meetings throughout the year in the Alumni Hall (30 mins before PAC meetings), and we look forward to having you participate. Please check our website <http://css.sd33.bc.ca> and our newsletters to keep you updated on dates and times: look specifically at the Grad tab. If you have any questions about a specific event, please contact our administration for more information.

Our first grad parent meeting is scheduled for **Monday, October 5th at 6:30 pm**. This meeting is in the Alumni Hall just before the parent advisory meeting. This will give you important information about grad and how you can get involved.

Only students who meet the British Columbia Ministry of Education's requirements (listed below) will be considered a graduate of 2025. If you have any questions about your graduation status, please contact your counsellor immediately to ensure you have all the necessary courses to graduate.

These scheduled sessions are mandatory. Students should be aware that course changes or course failures may impact graduation, and therefore, need to be considered carefully. Students will need to come in on your assigned day to verify your transcript.

CAPSTONE

The goal of Capstone is to create a final project that will be presented to a panel of teachers on February 26th. The capstone project is a representation of the student's learning journey. Students will have a teacher mentor and will meet on three designated dates during Flex to prepare their projects. The project will include information on what students have learned during their time in high school, the skills they have developed and their plans after graduation. The capstone presentation provides an opportunity for students to share and showcase their past, present and future endeavours. It is a chance for them to synthesize and celebrate their achievements and plans. Some of the kinds of questions you may be asked in the interview are in your Capstone Teams account. For more information, please email daniel_blaschek@sd33.bc.ca - Career Education Department Head.

GRADUATION ASSESSMENTS

Numeracy 10, Literacy 10, Literacy 12 Assessment Quick Facts

- The Graduation Assessments are provincial assessments and a graduation requirement for all students graduating after June 30th, 2018.
- The Graduation Assessments are not tied to a specific course, but rather, they evaluate a student's numeracy and literacy skills developed over the course of their education.
- Students will take the assessments during their graduation years (Grades 10–12). At CSS, students will be scheduled to take the Literacy 10 Assessment when they take an English 10 course, the Numeracy 10 Assessment when they take a Math 10 course, and the Literacy 12 Assessment when they take an English 12 course. The Assessments are taken during the provincial ministry designated dates in November, January, April, and June. If you have not completed your Graduation Assessments you must see your counsellor or Mr. Bhatti ASAP.
- Results will be reported on your student transcript using a proficiency scale (1-4).
- Students can re-take their Graduation Assessments to improve their proficiency score. Their best level achieved will be counted as their final result.
- Students will access their Graduation Assessment results through the Student Transcripts Service.

- The Graduation Assessments typically require two hours to complete; however, students may use an additional hour if they require the extra time.
